PERSONAL DETAILS

Date of Birth : 1989-05-28

PROFESSIONAL SUMMARY:

Senior Mobile Developer with 12+ years of experience specializing in Android (Kotlin/Java) and Flutter. Proven expertise in leading the full SDLC for enterprise-grade applications, with a strong focus on clean architecture (MVVM), performance optimization, and seamless backend integration. Successfully delivered over 20 mobile solutions for Fortune 500 clients, including an extensive portfolio for Reliance Industries. Passionate about building scalable, user-centric products and mentoring teams.

WORK EXPERIENCE:

Reliance Jio - Senior Manager Software Development

Mumbai, India • 02/2024 - Current

- Spearheaded the development and implementation of scalable software solutions, enhancing operational efficiency and team collaboration.
- Owned the complete development lifecycle from technical design and effort estimation to coding, peer reviews (using **PMD, Sonar**), testing (QA/UAT), production deployment, and post-launch support.
- Established coding standards and best practices, ensuring high-quality software delivery and reducing technical debt across projects.
- Served as a key technical point of contact for business stakeholders, effectively gathering requirements, and translating them into technical specifications.
- Researched and implemented new technological tools to optimize business process workflows.

Mobile Programming India Private Limited - Software Developer

Chandigarh, India • 07/2013 - 12/2023

- Built projects starting from Android SDK 2.1 (Eclipse) to current, modern development with Kotlin and Flutter, demonstrating an ability to adapt and evolve with technology.
- Collaborated with cross-functional teams to implement Agile methodologies, resulting in improved project delivery timelines and efficiency.
- Assisted in the design and architecture of mobile applications, contributing innovative solutions that aligned with user needs and market trends.

- Optimized application performance by conducting regular code reviews and refactoring when necessary.

A-One Technology Pvt. Ltd - Software Developer Intern

Punjab • 11/2012 - 06/2013
